***Please read the following Risk Disclosure and Disclaimer carefully before considering the features of this particular product.***

**DISCLAIMER:** Financial Trading of any kind whether it be FX, Commodities, Futures, Stocks and Options trading or any Derivative trading involves substantial risk of loss and is not suitable for every investor. The valuation of futures, stocks and options may fluctuate, and, as a result, with some brokers, clients may lose more than their original investment. The highly leveraged nature of futures trading can mean that small market movements could have a great impact on your trading account and this can work against you, leading to large losses or can work for you, leading to large gains.

If the market moves against you, you may sustain a total loss greater than the amount you deposited into your account. You are responsible for all the risks and financial resources you use and for the chosen trading system. You should not engage in trading unless you fully understand the nature of the transactions you are entering into and the extent of your exposure to loss. If you do not fully understand these risks you must seek independent advice from your financial advisor.

*“Remember that having the right psychology makes up 95% of the ingredients that you require to be a successful Trader in my opinion. Even if you have a successful trading strategy, without having the right mindset, you will fail. One of my goals in life is to make this whole process of trading easier for everyone”.*

# THE SIMPLE WAY TO TRADE THE MARKETS

It's simple really, if you want to be truly free financially, you have to get your money working for you instead of you working for your money. This will then free up your time so that you can really start to live your life.

A very effective way of achieving this is by mastering how to speculate on the FX, Capital and Commodities Markets and by Investing. We believe we have taken the next evolutionary step towards simplifying this process for everyone.

## WELCOME TO DISCREET TRADER PRO

We here at Universal Private Equity have developed this unique and exclusive service in collaboration with an Expert FX, Capital Markets and Commodities Trader David Carmichael - MLIBF, ACSI,

David Carmichael has invested years of his time and expertise, along with other highly successful Financial Traders, sought after Market Technicians, Mathematicians, Quantitative Specialists and Behavioural Experts to create this revolutionary information service. It has been created from a combination of deep market experience, quantum quantitative strategies and AI learning utilising the most advanced algorithmic trading models.

This service has been specifically designed for anyone who is serious about Trading the Financial Markets, but has been struggling to make consistent profits, and for those few successful Traders who just wish to become even more profitable and more relaxed with their trading.

Our goal is really to simplify the trading process for everyone so that all of our Traders can trade with peace of mind.

# WHAT IS DISCREET TRADER PRO?

Discreet Trader Pro is a technically very advanced, highly effective and innovative information service which has been developed by us along with experts from around the world in different fields. It was initially made available to Hedge Fund Managers, Investment Bankers and other Professional Traders. We are now making this service available to the wider public who may wish to be retail traders and to anyone in the world at large. We are passionate about making sure that everyone, novice or experienced, individuals or corporations, from whatever background, can benefit from this revolutionary service which can propel them towards Financial Freedom. This tool will assist anyone who wants to trade, to trade more profitably and with much less anxiety.

Discreet Trader Pro, being an exclusive, elite service, provides Traders and Investors with all of the information they need to guarantee themselves sustainable and consistent profits when trading the Financial Markets. We utilise the most up to date knowledge in a range of different fields such as Behavioural Psychology, Mathematical Modelling, Quantitative Analysis, Artificial Intelligence and Algorithmic Trading and have built a proprietary system which we believe is streets ahead of anything else which is currently available anywhere at any price.

Not only do we send you our real time trades (thus giving you the option to follow us and guarantee your profits), we also produce a premium weekly newsletter which we have called the T4M Newsletter. T4M is now arguably one of the most relevant, practically useful and influential newsletters of it's kind in the world. It not only assists our members to make better trading decisions, it also gives any trader and investor an insight into the thinking processes of the worlds top traders by publishing selected "Trade Ideas" from successful Traders. The content is specifically targeted at Traders, unlike a lot of newsletters which are aimed at long term investors. Contained within it are our experts' views and commentary on the FX, Capital and Commodities Markets, the previous week's trades which we published as well as other relevant information. We ensure that the T4M newsletter is completely relevant and that the subject matter is written clearly and briefly so that it is a genuine aid to your trading success.

Note that the time that we publish our real time trades is actually when one of our experts takes a position / enters a trade into a market or places an order into the market. The details are sent directly to you through our App or Private Telegram Group.

Our members feed back to us on a regular basis that since joining us they have massively increased their profitability through our published trades and through our Market Analysis Service.

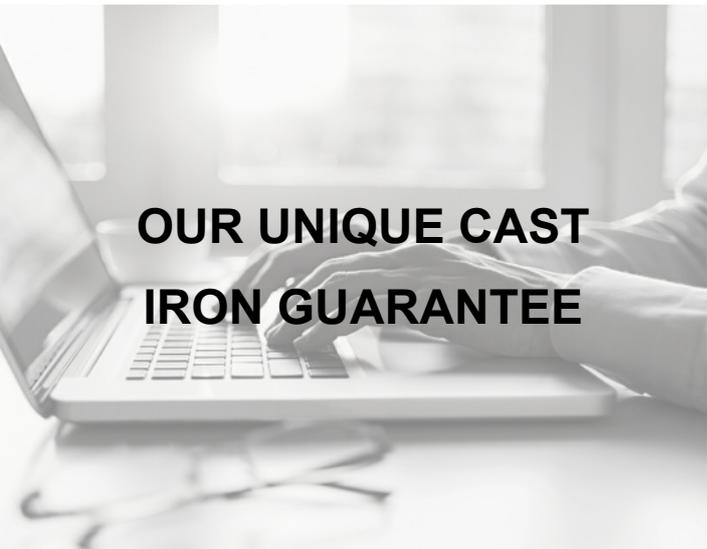

# THE FEATURES OF DISCREET TRADER PRO

- ✓ We broadcast the trades that we make live, in real time, on TWO markets.
- ✓ Generally this generates a minimum of 12 Trading opportunities per month.
- ✓ Trades are sent to your mobile device, through our App and Private Telegram Group.
- ✓ This tool has been designed to assist Day Traders and shorter term Swing Traders.
- ✓ You will receive our coveted T4M Newsletter every Monday before 6:00 AM (GMT). This will include commentary, Trade Ideas, a list of our trades from the previous week (with the end results for those trades) and other pertinent information.
- ✓ We enforce no minimum contract term so you can cancel the service at any time with no more payments to make.

## THE PERFECT TOOL FOR DAY TRADERS

When we say that this tool has been designed with “Day Traders” in mind, what we mean is that the signals that we send to our members tend to be for short term positions. Generally speaking with this system we would tend to be in and out of a trade in no more than 3 days and more often than not it is within 1 day. This is why it suits Day Traders. We do have tools available for longer term trading and investing but these are not included within this particular service.

## OUR UNIQUE CAST IRON GUARANTEE

---

We are so confident in Discreet Trader Pro that we offer a no quibbles cast iron guarantee. We GUARANTEE you consistent monthly profits. If in any month the aggregate of all of the trades which we have sent you has not generated a net profit of at least 25 pips / points, we will automatically and expediently REFUND the subscription for that month. This means that even if you only trade at £10 per point or 1 lot, if you do not make at least £250 (25 points / pips) we will then automatically refund you that month's subscription.

# THE FEATURES OF DISCREET TRADER PRO PREMIUM

- ✓ We broadcast the trades that we make live, in real time, on more than SIX markets.
- ✓ Generally this generates a minimum of 21 Trading Opportunities per month.
- ✓ Trades are sent to your mobile device, through our App and Private Telegram Group.
- ✓ This tool has been designed to assist Day Traders and shorter term Swing Traders.

- ✓ We enforce no minimum contract term so you can cancel the service at any time with no more payments to make.

Discreet Trader Pro Premium operates in the same way as Discreet Trader Pro. The difference is that we will publish our trades to you live, in real time on FOUR or more different Markets or Instruments instead of just one Market. The Markets we will send you the information on are:

- S&P 500 (US500)
- FTSE 100
- EUR/USD Currency Pair
- Crude Oil
- Natural Gas
- Gold
- Other Markets (discretionary)

In addition to these markets we allow you limited access to our Market Analysis Service. This is included within your subscription and will potentially save you thousands of pounds per annum because to access this expertise independently through us would normally be priced at £995 per hour. You will have access to us to analyse 1 market or instrument per day as a member. If you require more please contact us to discuss your requirements.

## MARKET ANALYSIS TOOL (HOW IT WORKS)

As a premium member you can access this very exclusive service which allows you to ask our experts for analysis on almost any market or instrument which you are thinking about trading. You can make one request for this analysis on one instrument or market in any one day.

All you have to do is email us at: [analysis@discreettraderpro.com](mailto:analysis@discreettraderpro.com) with the instrument details and the timeframe you would like us to look at. We will then email back a brief summary of how we see this market.

Many traders have told us that they now find this to be one of their most important and trusted indicators which they use before placing a trade. Traders know that the usual indicators traders use are lagging indicators, based on historical price action, while our indications are predictive. If you require wider access to this service you can contact us to discuss your requirements.

## OUR UNIQUE CAST IRON GUARANTEE STILL APPLIES

We are so confident in Discreet Trader Pro Premium that we offer a no quibbles cast iron guarantee. We **GUARANTEE** you consistent monthly profits. If in any month the aggregate of all of the trades which we have sent you has not generated a net profit of at least 50 pips / points, we will automatically and expediently **REFUND** the subscription for that month. This means that even if you only trade at £10 per point or 1 lot, if you do not make at least £500 (50 points / pips) we will then automatically refund you that month's subscription.

For simplicity we define a monthly period as the first working day of any month to the final working day of that same month.

## WHY CHOOSE US TO ASSIST YOU?

We believe that the decision to join us should be a no brainer for any serious Trader. This is because when you think about it, as a serious Trader, you most likely think about speculating with money every single day. Trading profitably generally works with statistical probabilities, so all you have to really ask yourself is the age old trading question and apply it to this purchase.

“By utilising this revolutionary service what is my downside risk? And what is my upside potential reward or benefit.”

When you ask yourself this question you will then realise that it is not a matter of should you join us, but really how quickly you should make the decision to join us. This is because we have literally eliminated any financial downside risk, by providing cast iron guarantees of profit (or your money back), while your upside potential reward or benefit is Financial Freedom and peace of mind.

In addition to the guarantees which we give, we have now made this tool much more accessible to many more people by completely waiving the joining fee and substantially reducing the ongoing monthly subscription fees by more than 50% for Discreet Trader Pro. This will then reduce, for anyone who wishes to subscribe, the initially outlay by £1,245 thus allowing you to experience the benefits of using this tool for a mere £247 per month. By now we like to think that we know a little bit about trading. If this were a trade we would categorically position ourselves within this trade, because even the £247 is refundable if there has not been a minimum net gain achieved within the trading month.

Note that for Discreet Trader Pro premium we have completely waived the joining fee and reduced the ongoing monthly subscription by 35%. So if you wish to subscribe to this premium service your initial outlay will be a total of just £973 per month. This will of course allow you access to our premium features which have been detailed earlier on. Our cast iron guarantee of course still applies to this option.

## A FINAL NOTE

Anybody who is seriously involved in trading has probably already learned that there are a million different ways in which you can complicate Trading. You can use screeners, scanners, candlestick patterns, technical analysis strategies, fundamental analysis strategies, along with thousands of indicators like the RSI, MACD, SMA, EMA, Bollinger Bands, etc, etc. This list goes on endlessly.

With Discreet Trader Pro we have simplified this whole process to such a degree that you can literally just live your life and have peace of mind, which after all is surely what we all want.

We look forward to partnering with you on your Trading journey.
